PROFESSIONAL SUMMARY

Computer Engineering student at VGEC with hands-on experience in MERN stack development, Core Java, and Python with ML . Skilled in building responsive web applications, REST APIs, and database-driven solutions, with knowledge of DSA, OOP, DBMS, and Machine Learning. Passionate about problem-solving and developing practical software solutions.

TECHNICAL SKILLS

- **Programming:** Java, Python, JavaScript
- **Web Technologies:** HTML, CSS, React.js, Node.js, Express.js, REST APIs, JWT Authentication
- **Databases:** MongoDB, MySQL
- **AI/ML:** Scikit-learn, Pandas, NumPy, Data Preprocessing, Model Evaluation
- **Core CS & Tools :** DSA, OOP, DBMS, Operating Systems, Git, GitHub, VS Code

EXPERIENCE

React Developer Intern

Infolabz *2026*

- Developed React.js applications using reusable components, React Hooks, and state management.
- Built user interfaces while strengthening JavaScript, component-based architecture, and frontend development skills.

PROJECTS

AgriSense | AI-Powered Crop Monitoring System

Technologies: Python, Machine Learning, Scikit-learn, Pandas, NumPy

- Developed a crop monitoring platform to predict crop yield and analyze crop health.Cleaned and processed agricultural datasets using Pandas and NumPy.
- Trained and evaluated machine learning models using Scikit-learn.
- Integrated ML predictions into a MERN application with an interactive dashboard.

ResearchMind | Multi-Agent AI Research System

Technologies: Python, LangChain, AI

- Developed an AI application to automate web research and report generation.Created specialized agents for searching, reading, and summarizing information.
- Implemented sequential workflows to analyze and organize research findings.
- Generated structured reports using information collected from multiple sources.

Home Essential Rental System | MERN Stack

Technologies :React.js, Node.js, Express.js, MongoDB, JWT

- Developed a rental platform for browsing and renting household essentials.
- Implemented product search and category-based filtering.Built REST APIs for user accounts, products, and rental bookings.
- Integrated MongoDB and JWT authentication for data management and secure access.

EDUCATION

Bachelor of Engineering in Computer Engineering - V.G.E.C. *2024 – 2027*

CGPA: 8.98

Diploma in Computer Engineering - A.V. Parekh Technical Institute *2021 – 2024*

CGPA: 9.60

ACHIEVEMENT

Smart India Hackathon – V.G.E.C. *Sep 2025*

- Participated in the Smart India Hackathon Internal Hackathon at Vishwakarma Government Engin eering College level.
